He has a fifteen days furlough which he will employ in looking after his private business—the Citizen's Motor Car Company.

September 7th Registration Day

Under the new draft law just enacted by congress, Saturday, September 7th, 1918, has been designated as registration day, when all the men in these United States between the ages of 18 and 45 years must appear before the local exemption boards for registration. As a failure to register will certainly get the delinquent into serious trouble we would advise all those coming within the new draft ages to present themselves to the exemption board on the day specified for registration.

War Stamp Notice.

The War Stamp Committee of Medina county is in receipt of a communication from Hon. Louis Lipsitz, State Director, to the effect that a number of letters have been sent to various citizens of this county relative to the sufficiency of their purchase of war stamps.

Three classes of persons have been written to by the Treasury Department: (1) Those persons who have subscribed liberal amounts and who by additional economy and sacrifice may be able to join the \$1,000 or Limit Club; (2) All corporations, co-partnerships, and principal business concerns of the county, all of whom are urged to join the Limit Club if financially able so to do; (3) All persons who have failed to subscribe an amount commensurate to their financial ability, based upon their property assessments as compared with what others of like standing are doing.

The government does not expect, and neither does it approve, of any person doing more than he rightly can do, but it does expect and demands that every person shall do his or her full duty.

The government is aware of the fact that various sections of the county are drought stricken and that the people residing in such sections are not financially able to do what they could have done had the conditions been normal. It is also well known to our government that many patriotic men and women have done and are doing more than their just share towards bearing the burdens of the war, while many others are assisting their country to the extent of their ability. If any of such persons have received letters, and no doubt some of them have, they may rest assured that Mr. Lipsitz had no thought nor desire to harass them.

However, there are persons who have not done their full duty. Men and women who have failed to realize that this is their war, and who have failed to realize that the loan asked of them by our government is for the purpose of raising funds for the clothing, for the feeding, and for the equipping of the men and boys who are fighting our battles and giving our lives for us. It is to this class that the appeal is made.

All such persons should bear in mind that they owe a duty to their country in time of distress, and a duty to the boys "over there" who have made, and who are daily making, sacrifices which cannot be compared to the small sacrifice demanded of all Americans not in the military service. Such delinquents are requested to compare their status and surroundings with that of our boys in the trenches and then ask themselves whether or not they have done their full duty towards those boys. Such persons are further reminded that they are making their own records of their own free will and are earnestly admonished that after this war is over, our government, and the boys when they come back will want to know just what that record is.

R. J. NOONAN,
County Chairman.

More Registrants Called.

Nine more registrants entrained here Tuesday evening for San Antonio to enter the military service: Following are the names of those sent in: Luciano Gomez, Albert S. McMickle, George Gerloff, John H. Folk, Frederick A. Lutz, Otto J. Weimers, Wm. J. Oppelt, Richard Zinsmeyer, Kurt T. Scharf.

Within the next six days the following thirty-four additional registrants will be sent to training camps: Albert H. Sims, Joe H. Ruderger, Aug. E. Richter, Chris. B. Wiemers, Walter J. Saathoff, Daniel J. Christilles, Wm. A. Reicherzer, Jno. B. Berry, Willie Boehme, Alfred Andrew Nehr, Louis A. Jungman, Tomas Gueda, Adolph S. Mangold, Edwin E. Belzung, Herman O. Lindeburg, Chas. Fred Koch, Richard Wanjuaro, Esteban Teneras, Martin A. Mechler, Andrew J. Kempf, Archie J. Graham, Otto Marquis, Walter J. Fuos, Andrew C. Muennink, Edward J. Bendele, Louis Joe Kempf, Santos Sepeda, Oscar Wm. Droitcourt, E. Walker, Julius R. Tondre, Thomas A. FitzSimons.

Included in the thirty-four names are included three negro registrants, to wit: Oliver Grant, Ed. L. Sutherland and Walter Sutherland.

Farmers' Union Convention.

Editor Anvil Herald:

As I saw my last week's article in your valuable paper, I will now tell you about the State Farmers' Union Convention. It was the best and most business-like convention I ever attended. We had an open meeting a little over half a day, and had some very interesting talks by men who do not belong to the organization, and they all spoke of the great good that had been done by the Farmers' Union, saying that it never was so necessary for the farmers to organize as it is now, and that it was unjust for the unorganized farmer to accept the work done by the Farmers' Union and not join the organization and help to do the work.

After the open session we went into executive session, which was the most harmonious and peaceful meeting I ever attended, and it was shown that the organization is growing and learning to take care of its business. There were a lot of resolutions passed, some of which are as follows: Asking the National Food Administration, in preparing its regulations to adopt a bases which will give the Texas farmers from \$70 to \$80 per ton for cotton seed; asking the legislature to give the people a chance to vote on a constitutional amendment to amend the homestead law so that the Farm Loan Bank can lend money to a man that has a homestead which is paid for; asking the government to lend money to the farmers in the drought-stricken district so they will be able to stay on their farms and cultivate them next year (this resolution has been granted and will be of immense benefit to the people); that the Farmers' Union, through local and county secretaries, keep an account of all crops planted in their respective localities, and their condition, and publish it in the Farmers' Union Messenger so that the farmers may know the condition of crops; that we do not ask for a price to be fixed on cotton, but if the government sees proper to fix a price on cotton we respectfully ask that a price of not less than 35 cents per pound be fixed.

Be it Resolved by the Farmers' Union of Texas in convention assembled, That we pledge to the government of the United States the assistance of our organization to the limit of our ability in winning the war now being waged for the purpose of making the world safe for democracy. We recognize the fact that the farmers of the nation in producing food and feed are indispensable in winning the war and we hereby solemnly dedicate ourselves to the task of so performing our functions as to insure the glorious triumph of American arms.

There was a great deal more work that we did but I fear the waste-basket, so I will close, and if the Anvil Herald wants some more Farmers' Union matter I will write again.

HENRY BENDELE,
Lecturer and Organizer of the Farmers' Union of Medina County.

Mrs. Ruth Hogan.

Mrs. Ruth Hogan, wife of R. L. Hogan, died at her home, 410 West Cevallos Street, yesterday afternoon at 1:50 o'clock. She was 25 years old and had resided in San Antonio all her life. Besides her husband, Mrs. Hogan is survived by her parents, Mr. and Mrs. Henry Hoefling, and a sister, Miss Helen Hoefling. Funeral services will be held at the residence at 5 o'clock this afternoon, after which interment will be made in Dignoway Cemetery. S. A. Express, Aug. 28th.—Mrs. Ruth Hogan is a grand child of Mr. and Mrs. August Hornung here who attended the funeral.

A Painful Accident.

Mr. Alfred Finger met with a serious accident Monday, which might cause the loss of one of his eyes. His brother, Frank, was engaged in sewing a cover on a canteen, and Alfred was sitting right near him. Stooping down for a scisscors just as Frank was pulling his needle out, he unfortunately stuck the needle in his eye. Dr. West was summoned at once who bandaged the eye and advised him to hurry to a specialist. He was taken to San Antonio at once and is now at the P. S. Hospital. —The D'Hanis Star.

Notice to Alien Women.

A German alien woman, the same as the men, in changing her place of residence to another place within the same registration district shall immediately report such change to the registration officer of the registration district and present to such registration officer her registration card for the purpose of having endorsed thereon by such registration officer the change of residence. A German alien female, same as in the case of the men, who desires to change her place of residence to a place of residence within another registration district must obtain a permit. Such German alien female must present herself to the registration officer of the district in which she then resides and make application for the permit on a form supplied by the registration officer and present her registration card to the registration officer for the purpose of having the permit of change of residence, if granted, endorsed upon her registration card. If the registration officer denies the application there may be an appeal under certain circumstances set forth in Article Thirteen, Paragraph Three of the General Regulations, to the United States Marshal of the judicial district for final action. A charge of residence in violation of the regulations subjects an alien enemy, among other penalties, to arrest and detention for the period of the war.

The registration officers who acted in the registration will continue to act as registration officers for the purpose stated in respect to permits for change of residence. Upon application therefor all necessary forms including applications and notices above referred to will be supplied by the United States Marshal to the chief registrars in cities and to the United States postmasters in communities of less than 5000 population.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 1c per bottle.

After Measles Whooping Cough or Scarlet Fever

the extreme weakness often results in impaired hearing, weakened eyesight, bronchitis and other troubles, but if Scott's Emulsion is given promptly, it carries strength to the organs and creates rich blood to build up the depleted forces. Children thrive on Scott's Emulsion. It is Free from Alcohol.

Last Saturday's Primary.

The run-off primary last Saturday proved a rather tame contest as the vote below will show. At the July primary a total of 1,735 votes were polled, while at the election last Saturday but 755 votes were cast—nearly 1,000 less than at the former primary.

Following is the result of last Saturday's primary in this county:

For Comptroller of Public Accounts:

H. B. Terrell 410

C. C. Mayfield 262

For Attorney General:

John W. Woods 248

C. M. Cureton 407

For Representative 116th District:

H. P. Hornby 257

A. J. Durham 499

According to the daily papers Terrell was the successful candidate for State Comptroller, Cureton won out for Attorney General, while the race for Representative, in the 116th District resulted in a victory for Hornby by a majority of 170 votes.

Resolution of Respect.

Whereas, as the result of a fatal accident which caused the death of our beloved brother, T. N. LEE, near Hondo, the F. E. & C. U. of A. has lost a worthy and a faithful worker; and

Whereas his death has removed from our ranks, one who has made friends by the scores, one who did all the good he knew how, and one whose place cannot be filled, thereby making his loss irreparable;

Therefore be it resolved by the F. E. & C. U. of A., of Medina Co., in convention assembled:

That in the death of our beloved brother we realize and mourn the passing of one of the country's most prosperous young men;

Be it further resolved, that we extend our sincere sympathy to the bereaved parents and relatives;

And be it further resolved, that a copy of these resolutions be furnished the parents, the local paper, the Farmers Union Messenger, and a copy be spread upon the minutes.

GET INTO DEBT

It is the Finest Thing in the World, Provided You Do it in a Good Cause—Such as the Liberty Loan.

Then you will plan and contrive to get out of debt. So you will do good to your Country and yourself.

The bank account of a farmer frequently is low. Especially is this true at the present time, when he can invest so profitably in increased acreage and production.

It might appear at first sight that this fact affords a reason for non-support of the Liberty Loan.

It does nothing of the sort.

This War Cannot Be Waged on the Nation's Past Savings

Or even on its income, but only by mortgaging its future productiveness.

To pay for the war out of our past savings would mean crippling industry, for we need plenty of capital to work with and produce goods necessary to the war. To pay for the war out of our current savings would be impossible. Previous to the period of the war we saved as a nation in one year about sufficient to keep this war going for four or five months.

By raising loans to be paid off in the future the Government is raising a great national mortgage on the resources of the nation for years to come.

The farmer—everyone in fact—must adopt the same course and mortgage their future earnings.

Let us suppose that in order to do your share for the Liberty Loan you find it necessary to mortgage your house, your farm or your automobile. Do it! Some men are giving their lives.

The U. S. Government, following the advice "Neither a lender nor a borrower be," would have to offer its submission to Germany at once.

There is No Disgrace in Being in Debt Today

The reverse is the case, the man who refuses to mortgage his future earnings is placing his immediate comfort and peace of mind above his clearly defined duty to himself and to his fellows.

Buy heavily of Liberty Bonds, and force yourself to pay for them out of your future earnings. Place yourself up against these conditions—until it hurts. You will gain, mentally, morally and financially.

PROF. MORRIS SAYS TANLAC SUPERIOR TO HEALTH RESORTS.

"It's The Best Medicine I Ever Tried!" He Says—Gains Twenty-four Pounds And His Troubles Are Gone.

Among the hundreds of thousands of statements made by prominent men and women who have been benefited by Tanlac, none is of more interest than the following letter received from S. R. Luton, of Bumpus Mills, Tennessee:

Tanlac Office, Atlanta, Ga., Gentlemen:

You will find enclosed a testimonial from Prof. Elmer Morris, a public school teacher, well known throughout this section, residing at Southside Tenn., R. D. 1. Prof. Morris, who is a costumer of mine, declares he has gained twenty-four pounds on three bottles of Tanlac, here is what he says:

"I have suffered terribly from stomach trouble for nearly a year. I went to a health resort and tried other means, but I could get no relief. I only weighed 170 when I began taking Tanlac, and since I finished my third bottle, I have not only gained twenty-four pounds, but my troubles are gone. Tanlac is certainly the best medicine I have ever tried."

Yours Very Truly,

Elmer E. Morris.

Tanlac is sold in Hondo by W. H. Windrow.

Could Live on Bananas Alone.

The exotic but always accessible banana is essentially sanitary—no germs can touch it. Like the apple, it can be served raw or cooked to please the most capricious palate. Like the onion, it provides the highly necessary mineral salts. And, like meat and milk, it has a high fuel value—slightly less than the one, slightly more than the other. Man cannot live by bread alone, but he could by bananas alone—if he had to.

Does Not Know the Boy.

Cardinal Newman, while familiar with the life and thought of the university man, admits his failure to know the boy. Out of the mouth of Charles Redding's father he extracts the confession that "there is no telling what is in a boy's heart. He may look as open and happy as usual, and be as kind and attentive, when there is a great deal wrong going on within."

Constipation is the starting point for many serious diseases. To be healthy, keep the bowels active and regular. HERBINE will remove all accumulations in the bowels and put the system in prime condition. Price 50c. Sold by W. H. Windrow.

As He Understood It.

John was trying to be unusually nice to a man who was visiting John's big sister, Clara. When things became dull inside, John invited the visitor out in the yard. Seeing one of his playmates, little John called him over, exclaiming: "Charlie, come on over and meet my sister's finance."

Apply a cotton cloth wet with BAL-LARD'S SNOW LINIMENT to all wounds, cuts, burns, sores or blisters, and note its wonderful healing power. It is prompt and very effective. Price 25c, 50c and 1.00 per bottle. Sold by W. H. Windrow.

CASTROVILLE, AUGUST 29, 1918

ED. HUEHNER, LOCAL REPRESENTATIVE

News or business matter for this page for the week's issue should be submitted to Mr. Huehner or mailed direct to us at Hondo not later than Wednesday night of each week.

Mr. and Mrs. Otto Haegelin and Mr. and Mrs. Edwin Balzen and children returned Wednesday from a pleasure trip. They left Saturday, August 16, passed through Hondo and Tarpiey, visited Louis Haegelin and family in Bandera county, and spent one day at Medina Lake. Then in company of Louis Haegelin and family visited Kerrville, Comfort and Center Point. While at the latter place they visited an orchard owned by a Mr. Mosty. They saw some of the finest specimens of fruit, such as peaches, pears and grapes, which the gentleman sells at \$1.00 per bushel; all is under irrigation. On their way home they passed through Pipe Creek, Boerne, Leon Springs, Helotes and Cliff. They found it very dry all along their route.

Born, to Mr. and Mrs. Adolph Ahr, on Thursday, August 22nd, a son.

Mrs. J. L. Mechler of Lacoste and cousin, Mrs. H. H. Stoll of San Antonio were visiting kinsfolk and friends in our midst Friday afternoon.

Mr. Henry Vonfie was a divine visitor Friday.

Mr. Henry Frick and family of Eagle Pass stopped over a while Saturday, en route to San Antonio.

Relatives here received the sad news Saturday that Mrs. Adolph Boehme, nee Zinsmeister, of Pipe Creek had died at her home and would be laid to rest at the Catholic cemetery at Bandera. We join this entire community in sympathy with the bereaved ones. R. I. P.

The run-off primary passed off very quietly, only 75 votes being polled.

The two dances came off on schedule time Sunday and Monday nights. The attendance was not very large the first night owing to the threatening weather, but on the second the lovers of sport turned out in full force.

A 1.15 inch rain fell here Saturday and Sunday. We learn that out at Bader Settlement it put out plenty of stock water.

Mrs. Joe Baumann and Mrs. Aug. Halbardier of Van Raub visited kinsfolk and friends in our midst Saturday.

Mr. and Mrs. Oscar Miller and Mrs. Chas. Schuehle of Hondo took in the dance here Sunday night.

Mr. and Mrs. Lou Heath and daughter were over from Hondo Sunday.

Mr. & Mrs. Fletcher Davis and family of Hondo spent Sunday here.

Miss Gussie Groff came out from San Antonio Saturday and visited her parents, Mr. and Mrs. Pete Groff.

Lula Beetz of San Antonio visited friends here this week.

Miss Bena Ahr of San Antonio visited her mother here, Mrs. Louis Ahr.

Misses Clara and Lurine Decker and Mr. Herbert Decker, of Hondo, and the Misses Miller of San Antonio, were here Sunday and Monday for the dance.

Miss Annie Toranio and brother, Manuel, of San Antonio, spent several days here with Miss Fanny Bourquin and Master Hugo.

Summer Complaint.

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept at hand. Mrs. F. F. Scott, Scottsville, N. Y., states, "I first used Chamberlain's Colic and Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."

Devine News Items.

Mrs. J. H. Ney and little son D' Hanis are visiting her parents, Mr. and Mrs. E. J. Balmos.

Elmer Balmos is at home from El Paso nursing an eye which is reported lost on account of a piece of steel entering the ball and which may require removal of ball.

Mr. August Schott and family, including Edward, went over to Camp Travis Friday to see the other son, Joe Frank, who was expected to leave at once.

Women, Prepare!

Thousands of women in Texas have overcome their sufferings, and have been cured of woman's ills by Dr. Pierce's Favorite Prescription. This temperance medicine, though started nearly half a century ago, sells most widely today. It can now be had in tablet form (60 a package) as well as liquid, and every woman who suffers from backache, headache, nervousness, should take this "Prescription" of Dr. Pierce's. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription, for its ingredients are printed on wrapper. Send 10c for trial package tablets to Doctor V. M. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

DALLAS, TEXAS.—"I was run-down. I took two bottles of Doctor Pierce's Favorite Prescription and it worked wonders for me. I was enabled to do my own work, and I would recommend it to any lady who is suffering."—MRS. HANNAH ALICE NEWSOME, 2336 Louise Street.

KERENS, TEXAS.—"I am very glad to say I used Dr. Pierce's Remedies. Seven years ago I had woman's disease. I went to our family physician and he told me to get Doctor Pierce's Favorite Prescription, that it was as good as anything he could give me. A few bottles of Dr. Pierce's medicine cured me sound and well of woman's disease. I have also written to Dr. Pierce's Invalids' Hotel for advice which was always promptly given, without any charge."—MRS. D. T. FAUGHN, Route 1, Box 93.

An Interesting Meeting.

On the night of the 8th Mr. Fletcher Davis, of the State Department of Agriculture, made a very interesting talk on National Efficiency which he said must come through co-operation and organization.

Statistics were quoted showing farmers had been selling cotton below cost of production, which went to prove that the economic conditions of this country were in some way wrong.

Statistics were also quoted showing that every organized movement toward the holding of cotton for the last 25 years has resulted in higher prices for the farmers. And every time these organized efforts have failed to operate, there has been a slump in the price, and at no time in the last 25 years has cotton sold for as much as 10 cents a pound, without some organized effort to market the cotton slowly.

The Bonded Warehouses and Federal Reserve Banks are ready to sustain the utilization of these facilities, coupled with the production of such crops as are needed for consumption on the farm, or self-sustaining system of agriculture ought to enable the farmers to fix a reasonable price on their cotton and be able to secure it.

This year's crop which will be about a 13 million bale crop, at 35 cents a pound which will be just about the cost of production this year, will amount to two billion, two hundred and seventy-five million dollars. The same cotton crop selling at 20c a pound will be but one billion, three hundred million, or a difference of nine hundred and seventy-five million.

The manufacturer of cotton goods is selling his products on the basis of 65 cent cotton. Somebody is going to get the benefit and Mr. Davis thought it wasn't hard to guess who.

Nine hundred seventy-five million dollars in the hands of the farmers would be a very great aid in helping them pay their debts, buy Liberty Bonds, and aid in winning the war.—Rosenberg Mews-Herald, Aug. 16th.

Hon. Fletcher Davis Speaks.

Hon. Fletcher Davis, representing the State Department of Agriculture, and Ed. R. Kone, former Commissioner of Agriculture, were here last Friday and spoke to a fair sized crowd of farmers and business men in the courthouse.

Both men are good speakers and it is a pity that more people, and especially farmers, did not hear the efforts of these gentlemen.

Mr. Davis is a newspaper man, being publisher of the Hondo Anvil Herald, and with that exception, is a fine fellow. He is an old-time friend of a member of The Gazette force and visited the office while in the city.

After paying a nice compliment to the general appearances of Seguin and its many beautiful homes Mr. Davis got down to business in explaining his mission and the workings of the State Department of Agriculture. — Guadalupe Gazette, August 23.

Field Agent Fletcher Davis of the State Department of Agriculture was here Monday and in the afternoon delivered an interesting and instructive lecture on the subject of "Rural Organization and National Efficiency," to a small crowd. Mr. Davis' lecture was intended mostly for the benefit of the farmers, and it is to be regretted that more of them did not hear same. However, just at this time threatening weather prevails, there is a shortage of help in gathering the cotton crop, the price is "up in the pictures," and the natural result was that but a comparatively small number of them could spare the time to hear the lecture. Mr. Davis' talk was interesting and contained much timely advice. As we stated before, it is a pity that more of our farmers did not hear same. He went from here to Columbus. — Weimar Mercury.

Field Agent Fletcher Davis, of the State Department of Agriculture, made a talk to our farmers and business men Monday afternoon. Mr. Davis is owner of the Hondo Anvil Herald, and reports newspaper sailing in his section, on account of the continued dry weather, as mighty tough, several papers in that immediate vicinity having gone to the wall during the past few months. — Schulenburg Steamer.

Follow This Advice.

Never neglect your kidneys.

If you have pain in the back, urinary
disorders, dizziness and nervousness,
it's time to act and no time to exper-
iment. These are frequent symptoms of
kidney trouble, and a remedy which
is recommended for the kidneys should
be taken in time.

Doan's Kidney Pills are a good rem-
edy to use. It has acted effectively in
many cases in this vicinity.

Can Hondo residents demand further
proof of merit than the following re-
commendation?

Floyd Trim, Box 24, Bigwells, Tex.,
says: "I suffered from soreness in my
back just over my kidneys and at times
lameness set in. Different remedies
were suggested to me and I tried them,
but no benefit followed. I had often
read statements given by people who
had used Doan's Kidney Pills with ben-
efit and I was finally led to take them.
The first box gave me so much relief
that I continued to use them until
cured."

New Regulations.

There has at last been accorded the
women of the United States an oppor-
tunity of showing their reverence and
respect for the Stars and Stripes when
the Star Spangled Banner is played or
the uncased colors of our country pass
in parade or review. It is now proper
and fitting for the women to stand at
attention at such times. Where before
they remained seated, they must now
stand erect, heels together, knees
straight without stiffness, hips level,
chest thrown out, arms hanging, nat-
urally at the side, facing the music or
colors, head and eyes directly to the
front, with the chin drawn in slightly.
It is an opportunity that long ago
should have been accorded the women
of the country to show their love for
the Red, White and Blue.

Also it is worthy of calling the atten-
tion of the civilian of today to the fact
that when the flag passes in parade or
he passes a flag in an army camp, or
the Star Spangled Banner is played,
he should remove his hat, holding it in
the right hand against the left shoulder
until the music is completed or the flag
is passed. These things should be prac-
ticed and remembered. It is a fitting
tribute to our colors.

The Amulet

By GENEVIEVE ULMAR.

(Copyright, 1917, Western Newspaper Union.)
"It has been in the family for over
two hundred years, Lois," spoke
Grandma Winters. "It is called an
amulet, and may have been worn by
some one of our ancestors in the
Crusades, for all we know."

"Oh, grandma, how grandly romantic!"
flattered impressionable Lois
Winters.

"In olden times an amulet was sup-
posed to shield its wearer from tem-
tation and harm. There is a legend
attached to this particular one, that
when the wearer is in peril or some
great trouble hovering, the white stone
in the center of the amulet will turn
blood red."

Lois looked awed, but she accepted
the pretty trinket with a grateful nod
and linked the finely spun chain about
her white, dainty throat. The base of
the amulet was an oval piece of stone
said to be a relic from an old temple in
Byzantium. In its center was a
milk-white square and this was sur-
rounded with rubies and sapphires.

"And remember my advice, child,"
continued Grandma Winters. "You
are on the threshold of a new career.
Make it peaceful and happy by entire
fidelity and devotion to the man you
have chosen to be your life partner.
Give your husband his own way, sacri-
fice all for his interest. Never, never
pout, or argue, or get gloomy. Make
him your king. If he ever falters
and is a good man, his innate sense of
right and justice will finally bring him
back to your side. Even should he
neglect you, your love and loyalty will
restore him to you. I speak from ex-
perience. Do not heed the idle gossips
who try to tell you otherwise!"

"Shouldn't wonder!" sniffed Mrs.
Royce. "Why, she is prettier—prettier—"
"Than I am," Lois filled out the
puzzled. "Indeed, yes, what of it, Mrs.
Royce?"

"Oh, nothing," pettishly retorted her
neighbor, "only I don't believe in hav-
ing artful beauties in the household."

Then shortly afterwards she came in
a great flurry to visit Lois.

"Oh, I must tell you!" she said ani-
matedly, fully primed with what she
considered to be a disturbing piece of
information. "My husband saw Mr.
Morse talking very earnestly to your
girl, Inez, yesterday, on a side street
down town."

"Has the milk stone ever changed
color since you had it, grandma?" in-
quired Lois.

"No, dear. You see, it came into my
hands long after middle life. Nearly
all those I loved were dead then, and
fate seemed to have done with sor-
rows and disappointment in my later
days. Remember all I have said,
child."

Lois did remember, and the joys and
happiness of the wedding, the honey-
moon, the settling down in a dream of
a flat, the loving thoughtfulness of her
husband made the ensuing two months
of her life a perfect whirl of excite-
ment. It was when she and Harvey
Morse faced practical, every-day life
that the advice of Grandma Winters
recurred to her. She repeated it one
day to a fickle, flashy Mrs. Royce, who
had brought her two days previous. Going
into the kitchen Lois came to a halt
with a shock.

"An old woman's vagaries," Mrs.
Royce disdainfully commented. "Your
grandmother is well meaning, but she
is of a past generation. I have been
married six years, and I started out
just as you have done, all tenderness,
all faith in my husband. I have been
sadly disillusioned. You will be,
in time. Give your husband no free
swing, he'll try to take it soon enough.
Show your will and spirit and hold
firmly to your own right."

"But I want no rights!" almost fear-
fully declared Lois. "I just want to
have Harvey's love and make him
happy," and Mrs. Royce smiled cyn-
ically and left Lois wretched.

"I won't heed her!" determined Lois,
after crying a spell. "Harvey isn't like
her kind of husband. I shall do just
as grandma told me," and that even-
ing she greeted Harvey with the an-
nouncement: "I promised Mr. Elston
today that you should join the new
club he is getting up."

"Oh, never!" cried Harvey in real
alarm. "Why, Lois, I've made all
kinds of excuses to Elston to get out
of the affair. I have no desire to
stay away from you fifty-two evenings
in the year."

"You must do your part in men's
affairs, just the same, you grand, de-
voted boy!" insisted Lois. "Think I
want to have the women folks gos-
sip about my selfishly keeping you
away from the privileges every man
should have? No, you join the club,"
and Harvey did.

"I see Mr. Morse has made the usual
start of the model husband," slurring
remarked Mrs. Royce the next day.

"You mean joining the club?" ques-
tioned Lois quickly. "Oh, I made him
do that."

"You did? Generous, unselfish lit-
tle girl! Don't you know that it's
the first indulgence in a long train of
troubles?"

It was about a week after that
when Lois noticed with some anxiety
that the second morning in succession
her husband had frowned in a dissatis-
fied way at the breakfast table. She
soon fathomed the cause. Mrs. Royce
had recommended a cool pretermi-
nally homely, rude and given to off-
day indulgence in liquor. Her pass-
able cooking had retrograded to the
utterable. Lois discharged her that
day.

She did not again invite the ad-
vice and assistance of Mrs. Royce as
to home help. Lois went to an em-
ployment bureau. Half a dozen can-
didates were presented. A sudden im-
pulse, knowing how Harvey loved pret-
tiness and the neat and dainty, caused
her to select a young girl of about

twenty. There was an earnest appeal
in the handsome face of the girl that
attracted her. She was of Spanish
origin, she told Lois, and she longed
for a quiet position, knew all about
cooking, and proved it to the satisfac-
tion of both Lois and Harvey within
the ensuing few days.

"Why, the girl is a jewel!" voted
Harvey enthusiastically. "What a con-
trast to the old cook!"

"And she is quite lovely, Harvey,"
intimated Lois.

"She looks like one of the fair sub-
jects of old Spanish pictures I have
seen," supplemented Harvey with un-
disguised admiration.

"You should be very happy," the girl
Inez, ventured to say one day to Lois.
"Mr. Morse is so kind and courteous
to everybody, and he worships the
very ground you tread on," and Inez
uttered a deep sigh, as though some-
where in her experience she had
known a vivid contrast in lover or hus-
band.

Mrs. Royce nearly fell off her chair
the first time she saw Inez. "It can't
be possible you chose that girl for
service!" she cried.

"Oh, yes," replied the artless Lois.
"She is the most perfect cook, and she
is so neat and pretty, I think it makes
home all the more attractive to Har-
vey."

"Shouldn't wonder!" sniffed Mrs.
Royce. "Why, she is prettier—prettier—"

"Than I am," Lois filled out the
puzzled. "Indeed, yes, what of it, Mrs.
Royce?"

"Oh, nothing," pettishly retorted her
neighbor, "only I don't believe in hav-

OUR STANDARD HAS BEEN SET

The mere purchase of a moderate amount of Liberty Bonds, and the payment of taxes without protest does not make up the whole duty of an American citizen today.

Something far deeper, further-reaching in its effect is called for than the lending or giving up of money under the pressure of popular demand or the attention of the tax collector.

We Must Reach a Higher Standard of Living.

We have lived altogether too much for ourselves; for material things. Henceforth our object must be slowly but surely to drive out the thought of self, and to so order our personal and business affairs that our Country, and the Great Cause for which the whole civilized world is fighting shall be our first consideration.

The possibility of bringing the great bulk of our people to such a frame of mind may be thought by some to be an empty dream. Such is not the case. Men used to every luxury that the world can afford, young men just starting out on a successful business or professional career, clerks from the department stores, boys on the farm, street laborers who have hardly learned to use our tongue, young women who might marry well and settle down to a life of comfort—these people in their thousands have seen that glorious vision of America as the Savior of the world, and of themselves as the instruments of that salvation.

Let Us Try to Rise to the Same Level

As have these men and women who have given money, future, life itself, to the service of their country. Let us lend our money to the Government as they have given their lives, cheerfully and fearlessly.

Let the requests of our Government which are published widely from time to time be regarded as sacred obligations. The Government has told us that the hardest work we are capable of, economy and sacrifice, are the great needs of the nation. Again, the Government has told us that the additional wealth we produce is needed for national expenditure and that

We Must Support the Liberty Loans

Just as the soldier persistently and consistently carries out orders, so must we.

It is only by following out the full scheme of the Government for us as individuals that we can do our duty. For instance, the man who has not worked hard, produced more ever before, economized saved, will not be able to meet the demands of the next Liberty Loan. It is now that we must be producing and saving for our Liberty Loan subscriptions.

Start working, saving, planning now for the Fourth Liberty Loan.

NEW VOTERS FACE GRAVE RESPONSIBILITY

Yes! you m'am—the wife of a farmer. You face a life-time of satisfaction or regret for the part you play in this great war.

You have such an influence over what your husband does, that the country is looking to you, quite as much as to him to see that the next Liberty Loan is over-subscribed.

You know how your husband consults you about everything, and—between ourselves—how he does pretty much as you say.

Tell him quietly, "I have been thinking about our duty to our Country and I feel we must make a great big sacrifice. We have never really been called upon to do anything for our Country until this war came, and we must respond now. Let's lend every cent we can spare, and can save during the next twelve months. Let's buy all the Liberty Bonds we can. I'll help you do it."

Yes m'am, you can do a wonderful work, and you will do it, won't you?

YOUR UNCLE SAM IS CALLING FOR THE RENT

You put by money to pay your life insurance, your taxes, and if you pay rent you allow for that also in your personal budget.

Why?

"Well," you say, "Look what would happen if I did not. My wife and children would suffer if I did not pay my insurance, my taxes I must pay or the sheriff would seize my goods; as for the rent—I need a good comfortable place to live in, and I would not have one if I refused to pay my landlord."

Subscriptions to Government Loans represent rent charged you for the privilege—and it is a privilege—of living in the United States; they represent life, accident and business insurance, and they keep not the sheriff but the Germans from seizing your property.

Did you ever look at the matter in this way before?

Now, when your rent is due you do not sit down and wonder where you are going to find the money—it has been put aside. Your insurance premiums are not scraped up on the spur of the moment—you have allowed for this expense.

The Liberty Loan is a standing item of expense, or rather investment. It is a saving which you must effect, a standing charge on your income, and can be met only by consistent, persistent, saving.

Whenever the question of personal expense comes up, remember your duties to the Government and yourself—remember the Liberty Loan.

Freak Cluster of Corn.

E. D. Leonard of Clarendon, Vt., recently exhibited a freak of nature in a cluster of ears of corn numbering about 20. While all are small and only partly developed, the kernels on each are ripe and of normal size. The cluster resembles a bunch of small bananas. All the ears grew from a single stalk.

Great Rubber Producer.

The Malay peninsula is the largest rubber-producing and rubber-exporting country in the world. Ten years ago the production was small, as compared with that of Brazil, which was then the principal source of supply. Its advent to first place as a rubber-producing country is due to its favorable climatic and soil conditions.

Tales Out of School.

Willie Slimson—"My, but I thought you were a great deal bigger than you are." Featherstone—"What gave you such an idea, Willie?" "Why, sister said that all you did was to take up room."—Life.

Acetylene Lighting.

Acetylene lighting is expected to come into general use throughout Denmark as the government has appointed a commission to pass upon lamps offered for sale and carbide is easily obtainable from Norway.

Camera Locates Sunken Vessels.

A powerful electric submarine camera that a New York man has invented is expected to get as much information about sunken vessels in a short time as would take experienced divers days to gather.

"Charm" to Save Teeth.

It was a Roman custom to hang beads of red coral on the cradles of infants and around their necks to "preserve and fasten their teeth" and save them from "the falling sickness."

Shower Bath and Massage.

A Texan is the inventor of a combined shower bath and massage machine, brushes being revolved by an electric motor against a person standing within a tall cylinder into which water is sprayed.

Vain Promise Otherwise.

She (to fiance)—"We must be very economical now. Promise me that you will do nothing you can't afford." He—"What! Do you want me to break off the engagement?"

Can Remove Birthmarks.

Birthmarks and other superficial growths that defied chemicals have been removed with radium by English experts.

Shopping Made Easy.

No longer must the married man spend frenzied hours trying to match silks over the counters of the department stores. The government has decided that the sufferings of the silk-matching husband are just too horrible and is planning to alleviate them by standardization. Soon Henry will be able to order E-6785 and carry it home to Jane with the absolute certainty that there will be no come-back. The magic mechanism is the colorimeter, a device which is being perfected by the United States Bureau of Standards. The vibrations of light—which determine color—will be thrown onto one plane by the colorimeter and split up. Definite color standards so determined will be used in grading crude oil and paints as well as color fabrics.—Milestone.

The Soap Berry Tree.

The Jaboncello, or soap berry tree, grows in the humid parts of western Ecuador. It attains a height of 50 feet and has wide-spreading branches and immense quantities of fruit of the size and shape of cherries. The nearby transparent yellowish skin and pulp surrounding the round black seeds are so saponaceous as to be used instead of soap, being equivalent to more than 50 times their weight of that material.

Pain Gives Warning.

The nervous system is our life-saving service and every time a nerve aches or quivers in pain it is a blessing in disguise. The first bit of toothache warns you that disease germs are attacking its structure. An ache in the head is notice that something is wrong somewhere and not always is it in the head itself. Pain is not nature's method of punishment, it is her way of warning. When you feel pain don't merely try to allay it, seek out its real cause and stop that.

Helmet Styles Unchanged.

Helmet styles have not changed in centuries. There is a curious resemblance between the iron pots worn by ancient knights and those employed by the soldiers of America and Europe. Indeed, ancient and medieval armor dating back to the time of the Crusades has been imitated by the twentieth century. Some of the designs found in museums have not even been altered.

Canadian Honored.

At Balaklava, Canada was represented by Lieut. Alexander Dunn of Toronto, an officer of the Light Brigade. He was the first native of Canada to receive the Victoria Cross. At Waterloo Capt. Alexander McNab, the first Canadian to hold a commission in the British regular army, was among the heroic dead of that historic battlefield.

Business and Collections.

Small Gordon is the son of a physician and is fond of being with his father when he types his monthly statements. Meeting him one morning on his way to the mail box with a handful of envelopes, a neighbor called to him: "How is business, Gordon?" To which he replied: "Business is good, but collections is poor."

Suffers in Silence.

The average millionaire knows how unpopular it is to be rich, but he goes right along and endures the painful responsibilities of wealth, suffering the scorn and calumny of a cruel world in silence, and awaits his vindication beyond the grave.—Houston Post.

Her Dire Threat.

Safina, aged three and a half, climbed to her place on her father's knee. He being worried, put her down. She stood looking at him seriously for a moment and then said: "Well, if you don't want no baby I'll just go to war."

Coal Mine Ablaze.

At Brule, near St. Etienne, a coal mine has been on fire for ages and has given the district quite a volcanic aspect. All attempts to extinguish it have been futile. It still blazes and smolders.

Mermaids' Uniforms.

Elizabeth was looking at a fairy book, when she espied some mermaids on a page that big sister had just turned over. She opened her big eyes and said, "Oh, sister, wait a minute. Let me see their beauty uniforms."

Carbide of Calcium.

Sweden and Norway together manufacture more carbide of calcium than any other single nation, but use very little of it, exporting almost the entire production.

Philippines Population.

Government officials recently estimated the population of the Philippines at slightly more than 9,500,000, the Island of Luzon having about one-half the number.

Another Boyhood Ambition.

Our idea of an ideal situation would be to be paid a large salary for serving in a merely advisory capacity.—Ohio State Journal.

Certainly Wrong.

Anybody that is fighting everybody is wrong.

We must raise wheat for our Armies and for our Allies

D. B. Osborne, Chairman Soil Improvement Committee, Atlanta, Ga.

Wheat is the most important War Crop. Until its production is increased still more there will not be enough to remove the danger of a Food Shortage from the Front.

Of twelve most important Food Crops, the entire country gained in planted acreage in 1917 over acreage of 1914—26,124,000 acres.

Of this gain the Southern States increased 14,965,000 acres or 57 per cent of the whole.

Of the individual crops the South gained:

In Wheat—1,976,000 acres, or 56 per cent of the whole. In Corn—6,582,000 acres, or 41 per cent of the whole. In Other Food Crops—6,407,000 acres, or 37 per cent of the whole.

Of the Fall wheat acreage of 1918 there was an increase of 3,067,000 acres, of which the South gained 2,332,000 acres, or 76 per cent.

But we can do still better in 1919.

Let's back up Our Boys in France. It is no less our duty to furnish them and our allies food than it is their duty to fight. We are raising this fall an ample cotton crop to clothe and provide edible fats and oils for our boys. Let us raise a big grain crop next spring to help feed them.

It can be done. The labor requirements are comparatively small, and the acre yields may be increased with good seed, a well prepared seed bed and a liberal application of proper fertilizers.
